

Engineering Law

Prof. Howard Rockman

August 31, 2002

Contents

1	INTRODUCTION	13
2	Overview of the Law	15
2.1	Development of the Law and Legal Principles	15
2.2	Divine Laws	16
2.3	Civil Law Systems	16
2.4	Enforcement of Laws	17
2.5	The Four Types of Law	17
2.6	Changes in the Law	20
2.7	Equity	20
2.8	Assignment	24
3	Courts, Trial, Trial Procedures and Evidence	25
3.1	Courts, State and Federal	25
3.1.1	The Federal Court System	26
3.1.2	State Courts	28
3.1.3	Jurisdiction	29
3.2	Pre-trial Procedure in the Legal System Pleadings	30
3.3	Discovery	31
3.4	Trial Procedure	32
3.4.1	The Jury	32
3.4.2	Courtroom Procedure	33
3.4.3	New Trial or Appeal	34
3.4.4	Equity Suits	34
3.5	Evidence	35
3.5.1	Real Evidence and Testimony	36
3.5.2	Judicial Notice	36
3.5.3	Presumptions	36

3.5.4	Direct and circumstantial evidence	37
3.5.5	Best or Primary Evidence	38
3.5.6	Hearsay Evidence	38
3.5.7	Res Gestae	39
3.5.8	Parole Evidence Rule	39
3.5.9	Opinion Evidence	39
3.5.10	Witnesses	40
3.6	The Engineer is an Expert Witness	40
3.6.1	The Need for Experts	41
3.6.2	Expert Assistance by Engineers	42
3.7	Assignment	46
4	Ethics	47
4.1	Professional Societies	48
4.2	Code of Ethics	48
4.3	Brief Comments Regarding the National Society of Professional Engineers Code of Ethics for Engineers	49
4.4	The Law and Ethics	51
4.5	Recruiting Practices	52
4.6	Criminal Law	53
4.7	Assignment	55
5	Intellectual Property Law	57
5.1	Overview	57
5.2	Patents General	58
5.2.1	What is a Patent?	58
5.2.2	The History of the United States Patent Laws	59
5.3	The Right to a Patent	60
5.3.1	Patentable Subject Matter	60
5.3.2	Assignment	61
5.3.3	Shop Rights and Contracts to Assign	61
5.3.4	Patents Issue Only On Inventions or Discoveries	62
5.3.5	New and Useful	63
5.3.6	Categories of Patentable Inventions	65
5.4	Assignment	67
5.5	The Patenting Process	68
5.5.1	Preliminary Novelty and Limited Infringement Search	69

5.5.2	The Patent Application, Including Specification and Claims	69
5.5.3	Declaration or Oath	72
5.5.4	Examination of the Patent Application	72
5.5.5	Amendment	74
5.5.6	Response	74
5.5.7	Appeal	75
5.5.8	Interferences	75
5.5.9	Allowance and Issue	76
5.6	Assignment	77
5.7	Infringement and Remedies	78
5.7.1	Acts of Infringement	78
5.7.2	Defenses to a Charge of Infringement	79
5.7.3	Remedies	79
5.7.4	Patent Markings	80
5.8	A Few Common Criticisms of the Patent System	81
5.9	Assignment	83
6	Trademarks and Copyrights	85
6.1	Trademarks	85
6.1.1	The Nature of Trademarks	85
6.1.2	Licensing and Franchising	89
6.2	Copyrights	90
6.2.1	Background	90
6.2.2	The Nature of Copyrights	91
6.2.3	The Idea/Expression Dichotomy	92
6.2.4	Exclusive Rights	92
6.2.5	Fair Use	93
6.2.6	Infringement	95
6.2.7	Notice	95
6.2.8	Registration and Its Importance	96
6.2.9	The Duration of Intangible Rights Of Copyright	96
6.2.10	Works For Hire	97
6.2.11	Architectural Works	99
6.3	Assignment	100

7	Trade Secret and Mask Work Protection	101
7.1	Trade Secret	101
7.1.1	The Nature of a Trade Secret	101
7.1.2	Confidence	102
7.1.3	Improper Means	103
7.1.4	Remedies for Trade Secret Violation	103
7.2	Mask Work Protection	104
7.2.1	Mask Works Generally	104
7.2.2	Subject Matter of Mask Work Protection	104
7.2.3	Ownership, Transfer and Licensing of the Mask Work	105
7.2.4	Duration of Protection	105
7.2.5	Rights of Ownership in a Mask Work	105
7.2.6	Limitations on Exclusive Rights, Reverse Engineering and First Sale	106
7.2.7	Mask Work Notice	106
7.2.8	Infringement of Mask Work Protections	107
7.3	Assignment	108
8	Common Torts	109
8.1	Introduction	109
8.2	Negligence	110
8.2.1	General	110
8.2.2	Duty	110
8.2.3	Standard of care	111
8.2.4	Proximate cause	111
8.2.5	Res Ipsa Locquitur	112
8.2.6	Gross negligence	113
8.2.7	Negligence defenses	113
8.3	Torts Against A Person	114
8.4	Torts Against Reputation	115
8.5	Torts Against Property	116
8.6	Torts Against Economic Rights	117
8.7	Time Limitations	119
8.8	Assignment	120
9	Product Liability	121
9.1	History of Products Liability	121
9.2	Strict Liability	123

9.3	Plaintiffs Case	124
9.3.1	Defective Product	124
9.3.2	Hidden Defects	125
9.3.3	Discovery	126
9.3.4	Damages	126
9.3.5	User or Consumer	127
9.4	Defendants Case	127
9.4.1	Product Alteration	127
9.4.2	Proximate Cause	128
9.4.3	Obviousness	128
9.4.4	Abuse	128
9.4.5	Functional Necessity and State of The Art	129
9.4.6	Standards	129
9.4.7	Plaintiffs Negligence	130
9.4.8	Defense Image	130
9.4.9	State Statutes	130
9.5	Assignment	132
10	Safety	133
10.1	Introduction	133
10.2	OSHA	134
10.2.1	Applicability of the OSHA Act	135
10.2.2	The OSHA Agency	135
10.2.3	NIOSH	136
10.2.4	State Programs	136
10.2.5	On-Site Consultation	137
10.2.6	Standards	138
10.2.7	Inspections	140
10.2.8	Record Keeping	142
10.2.9	OSHA and The Political Environment	142
10.3	Assignment	143
11	Environmental Law	145
11.1	Storage and Use of Hazardous or Toxic Materials Compliance and Reporting Requirements	145
11.2	Emergency Planning and the Community Right to Know Act of 1986	146
11.3	State and Local Emergency Planning	146

11.3.1	Applicability	147
11.3.2	Content of Report	147
11.3.3	Emergency Notification	147
11.3.4	Report Content	148
11.4	Chemical Inventory Reporting	148
11.4.1	Toxic Chemical Release Reporting	149
11.4.2	Applicability	149
11.4.3	Trade Secrets	149
11.5	Toxic Substances Control Act	150
11.5.1	TSCA Inventory	151
11.5.2	Pre-Manufacture Notices (PMNs)	151
11.5.3	Special Issues for Polymers	152
11.5.4	Significant New Use Rules	152
11.5.5	Regulation of Substances Under Section 6 of the Act	153
11.5.6	Testing Requirements	153
11.5.7	TSCA Record Retention	154
11.5.8	PCB Regulation	154
11.5.9	Asbestos Regulation	155
11.5.10	Lead Regulation	155
11.5.11	Raw Material Storage In Above Ground Storage Tanks	156
11.5.12	Underground Storage Tanks	157
11.6	Building Renovations Regulations	157
11.7	The Federal Insecticide Fungicide and Rodenticide Act	158
11.8	Air Pollution	159
11.9	The Clean Air Act of 1967	159
11.9.1	Ambient Air Quality Standards	159
11.9.2	State Implementation Plans	160
11.9.3	Reasonably Available Control Technology	161
11.10	Air Toxics	161
11.11	Permits to Construct and Operate Existing Sources of Air Pollution	161
11.12	New or Modified Activities	162
11.13	Mobile Source Emissions	162
11.14	Water Pollution	163
11.14.1	Navigable Waters	163
11.14.2	Point Source	163
11.14.3	Discharges	163
11.14.4	Pollutant	164

11.15	Direct Discharges	164
11.15.1	Storm Water	164
11.15.2	Wetlands	164
11.15.3	Great Lakes Water Quality Guidance	165
11.16	Waste Management	165
11.17	Special Treatment for Recycled Materials	166
11.18	Assignment	168
12	Introduction to Contracts	169
12.1	Introduction	169
12.1.1	Definition of a Contract	170
12.1.2	Sources of Contract Law	170
12.1.3	Elements of a Valid Contract	171
12.1.4	Different Types of Contracts	173
12.1.5	Negotiable Instrument	175
12.1.6	Promissory Note	176
12.1.7	Bearer or Order Paper	176
12.2	Parties	177
12.3	Agreement	178
12.3.1	Introduction	178
12.3.2	Formation of a Contract	178
12.3.3	Silence as Acceptance	180
12.3.4	Forms	181
12.3.5	Voluntary Assent	181
12.3.6	Non-Voluntary Assent	182
12.3.7	Remedies	185
12.4	Consideration	186
12.4.1	Introduction	186
12.4.2	Elements of Consideration	187
12.4.3	Theories of Consideration	188
12.5	Assignment	190
13	Contracts	191
13.1	Lawful subject Matter	191
13.1.1	Introduction	191
13.1.2	Intent	191
13.1.3	Contracts Contrary to Statute or Common Law	192
13.1.4	Contracts Contrary to Public Policy	196

13.1.5	Effect of Illegality on Contracts	198
13.2	Statute of frauds	199
13.2.1	Introduction	199
13.2.2	The English Statute of Frauds	199
13.3	Performance, excuse of performance and breach	204
13.3.1	Introduction	204
13.3.2	Performance	205
13.3.3	Conditions	205
13.3.4	Architects Approval	205
13.3.5	Satisfactory Performance	206
13.3.6	Completion Date	206
13.3.7	Substantial Performance	207
13.3.8	Impossibility of Performance	207
13.4	Prevention of performance	209
13.5	Waiver	209
13.6	Agreement	210
13.6.1	Renunciation	210
13.6.2	Accord and Satisfaction	210
13.6.3	Novation	210
13.6.4	Arbitration	211
13.7	Tender of performance	211
13.8	Anticipatory breach	212
13.8.1	By Operation of Law	213
13.9	Assignment	216
14	Cybersquatting	217
14.1	Introduction	217
14.2	The Domain Name System and Top Level Domains	218
14.3	The Uniqueness Factor and Its Role In Domain Name Disputes	219
14.4	Types of Disputes	220
14.4.1	Tarnishment	220
14.4.2	Infringement	220
14.4.3	Cyberjesters	220
14.4.4	Cybersquatters	221
14.4.5	Governmental and Educational Domain Names	221
14.5	The NSI Dispute Policy	222
14.6	International Proposals for Domain Name System Reform	222
14.6.1	IHAC Proposals	222

14.6.2 The Clinton Administration Proposals 223

14.6.3 ICANN 223

14.6.4 The WIPO Process 223

14.6.5 WIPO Dispute Policy Recommendations 224

14.6.6 ICANN Uniform Domain Name Dispute Resolution Policy (UDRP) 225

14.7 Recent and Present Work of ICANN in Domain Name Dispute Resolution 226

14.8 The ICANN Uniform Dispute Resolution Policy (UDRP) . . . 227

14.9 The Anti-Cybersquatting Consumer Protection Act 229

14.10 Assignment 231
